SAFETY DATA SHEET

SECTION 1 - PRODUCT & COMPANY IDENTIFICATION

Product Name: 359 Novolac Epoxy Lining Product Code: 359-Base White

Trade Name: 359-Base White

Adams Paint Mfg Company 1416 N University Ave

Lubbock, Tx 79415

Telephone Number: 806-763-2944 Web Site: adamspaintmfg.com

Product Use: See Product Data Sheet

Not recommended for: See Product Data Sheet

Emergency Contacts & Phone Numbers

Chemtrec: 800-424-9300

SDS Request Line: 806-763-2944

SECTION 2 - HAZARDS IDENTIFICATION

GHS Ratings:

Flammable liquid	2	Flash point < 23°C and initial boiling point > 35°C (95°F)
Eye corrosive	2A	Eye irritant: Subcategory 2A, Reversible in 21 days
Carcinogen	1A	Known Human Carcinogen Based on human evidence

GHS Hazards

H225	Highly flammable liquid and vapour
H319	Causes serious eye irritation
H350	May cause cancer

GHS P

Precautions Precautions	
P201	Obtain special instructions before use
P202	Do not handle until all safety precautions have been read and understood
P210	Keep away from heat, sparks, open flames, hot surfaces and other ignition sources - No smoking
P233	Keep container tightly closed
P240	Ground and bond container and receiving equipment
P241	Use explosion-proof electrical, ventilating, lighting and equipment
P242	Use only non-sparking tools
P243	Take precautionary measures against static discharge
P264	Wash thoroughly after handling
P280	Wear protective gloves, protective clothing, eye protection and face protection
P281	Use personal protective equipment as required
P303+P361+P353	IF ON SKIN: Take off immediately all contaminated clothing. Rinse skin with water
P305+P351+P338	IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
P308+P313	IF exposed or concerned: Get medical attention
P337+P313	Get medical attention
P370+P378	In case of fire: Use dry chemical, foam, carbon dioxide or water fog for extinction

P403+P235 Store in a well ventilated place. Keep cool

P501 Dispose of contents and container in accordance with local and national

regulations

Store locked up

Signal Word: Danger

P405

SECTION 3 - COMPOSITION INFORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %
Phenol, polymer with formaldehyde, glycidyl ether	28064-14-4	30.00% - 40.00%
Talc	14807-96-6	10.00% - 20.00%
Titanium dioxide	13463-67-7	10.00% - 20.00%
Quartz	14808-60-7	10.00% - 20.00%
2-Pentanone, 4-methyl-	108-10-1	10.00% - 20.00%
Mica	12001-26-2	1.00% - 5.00%

SECTION 4 - FIRST AID MEASURES

<u>Inhalation</u>: If inhaled, remove to fresh air. If not breathing, give artifitial respiration or give oxygen by trained personnel. Seek immediate medical attention.

Eve Contact: Immediately flush eyes with plenty of water for 10 to 15 minutes. Get medical attention, if irritation or symptoms of overexposure persists.

Skin Contact: Immediately wash skin with soap and water. Get medical attention if irritation developes or persist. **Ingestion**: If swallowed, DO NOT induce vomiting. Call physician or poison control center immediately. Never give anything by mouth to an unconscious person.

Other First Aid: Due to possible aspiration into lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have person lean forward to reduce risk of aspiration.

SECTION 5 - FIRE FIGHTING MEASURES

Flash Point: 18 C (64 F)

LEL: 1.00 UEL: 8.00

<u>Suitable Extinguishing Media</u>: Use dry chemical, foam, carbon dioxide, or water fog to extinguish fire. Water may not be effective to extinguish fire. Spattering of flammable liquid may result from spraying water.

<u>Specific Hazards arising from the Chemical</u>: Minimize breathing gases, vapors, fumes or decomposition products. at elevated temperatures, vapors can form an ignitable mixture with air. Vapors can flow along surfaces to distant ignition sources and flash back. Closed containers may explode when exposed to heat.

<u>Protection of Firefighters</u>: Water may be unsuitable as an extinguishing media, but helpful in keeping adjacent containers cool. If a leak or spill has ignited, use water spray to disperse the vapors and to protect the men attempting to stop leak.

<u>Protective Equipment and Precautions for Firefighters</u>: Wear self-contained breathing apparatus and full protective gear.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions: Use proper personal protective equipment as listed in Section 8.

Environmental Precautions: Avoid runoff into storm sewers, ditches and waterways.

<u>Methods for Containment</u>: Contain spilled liquid with sand or earth. DO NOT use combustible materials, such as sawdust.

Methods for Clean-up: Remove all sources of ignition. Provide ventilation. Absorb spill with inert material (dry sand

SDS for: 359-Base White Page 2 of 6

SECTION 7 - HANDLING AND STORAGE

<u>Handling</u>: Use with adequate ventilation. Avoid breathing vapor and contacts with eyes, skin and clothing. Material will accumulate static charges which may cause an electrical spark (ignition source), bond and ground containers when transferring material. Use spark-proof tools and explosion-proof equipment. Do not reuse containers without proper cleaning or reconditioning.

<u>Hygiene Practices</u>: Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist. <u>Storage</u>: Store in a cool dry, well ventilated area away from sources of heat, combustible materials and incompatible substances. Keep container tightly closed when not in use.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits	
Phenol, polymer with formaldehyde, glycidyl ether 28064-14-4	Not Established	Not Established	Not Established	
Talc 14807-96-6	Not Established	2 mg/m3 TWA (particulate matter containing no asbestos and <1% crystalline silica, respirable fraction)	NIOSH: 2 mg/m3 TWA (containing no Asbestos and <1% Quartz, respirable dust)	
Titanium dioxide 13463-67-7	15 mg/m3 TWA (total dust)	10 mg/m3 TWA	Not Established	
Quartz 14808-60-7	Not Established	0.025 mg/m3 TWA (respirable fraction)	NIOSH: 0.05 mg/m3 TWA (respirable dust)	
2-Pentanone, 4-methyl- 108-10-1			NIOSH: 50 ppm TWA; 205 mg/m3 TWA 75 ppm STEL; 300 mg/m3 STEL	
Mica 12001-26-2	Not Established	3 mg/m3 TWA (respirable fraction)	NIOSH: 3 mg/m3 TWA (containing <1% Quartz, respirable dust)	

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective, wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Eye / Face Protection: Wear protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulations.

Skin Protection: Chemical-resistant gloves and chemical goggles, face-shield and synthetic apron or coveralls should be used to prevent contact with eye, skin or clothing.

<u>Respiratory Protection</u>: A NIOSH-approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air-purifying respirators is limited. Use a positive-pressure, air-supplied respirator if there is any potential for uncontrolled release, exposure levels are not known or any other circumstances where air-purifying respirators may not provide adequate protection.

<u>General Hygiene Considerations</u>: Avoid breathing vapor or mist. Avoid contact with eyes and skin. wash thoroughly after handling and before eating or drinking.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance: Liquid

Vapor Pressure:15.0 mmHgOdor threshold:No DataVapor Density:Heavier than airpH: No Data

Lbs / Gallon 13.31 Melting point: No Data

Freezing point: No Data

Solubility: Moderate

Boiling range: 114°C

Flash point: 64 F,18 C

Evaporation rate: Slower than Ether Flammability: Flammable Liquid

Class IB

Odor: Ketone

Explosive Limits: 1% - 8% Partition coefficient (n- No Data

octanol/water):

Autoignition temperature: 448°C Decomposition temperature: No Data

Viscosity: No Data VOC g/l 205.885

SECTION 10 - STABILITY AND REACTIVITY

<u>Chemical Stability</u>: Stable under normal temperatures and pressures. <u>Conditions to Avoid</u>: Heat, flames, sparks and other ignition sources.

Incompatible Materials: Avoid contact with strong oxidizing agents, strong alkalies, strong acids ..

Hazardous Decomposition Products: Incomplete combustion may produce carbon oxides, aldehydes and other

toxic gases.

Hazardous Polymerization: Will not occur.

SECTION 11 - TOXICOLOGICAL INFORMATION

Mixture Toxicity

Oral Toxicity LD50: 2,908mg/kg

Component Toxicity

108-10-1 2-Pentanone, 4-methyl-

Oral LD50: 2,080 mg/kg (Rat) Dermal LD50: 3,000 mg/kg (Rabbit) Inhalation LC50: 2,000 mg/L (R

Miscellaneous Toxicological Information:

Notice: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

<u>CAS Number</u> 14808-60-7	<u>Description</u> Quartz	<u>% Weight</u> 10 to 20%	Carcinogen Rating Quartz: NIOSH: potential occupational carcinogen IARC: Human carcinogen OSHA: listed
13463-67-7	Titanium dioxide	10 to 20%	Titanium dioxide: NIOSH: potential occupational carcinogen IARC: Possible human carcinogen OSHA: listed
108-10-1	2-Pentanone, 4-methyl-	10 to 20%	2-Pentanone, 4-methyl-: IARC: Possible human carcinogen OSHA: listed

SECTION 12 - ECOLOGICAL INFORMATION

No additional information provided for this product. See Section 3 for chemical specific data.

Component Ecotoxicity

Talc 96 Hr LC50 Brachydanio rerio: >100 g/L [semi-static]

2-Pentanone, 4-methyl- 96 Hr LC50 Pimephales promelas: 496 - 514 mg/L [flow-through]

48 Hr EC50 Daphnia magna: 170 mg/L

96 Hr EC50 Pseudokirchneriella subcapitata: 400 mg/L

SECTION 13 - DISPOSAL CONSIDERATIONS

<u>Waste Disposal</u>: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classification of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidlines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and / or state and local guidelines.
